Very good.

DIAL

Enamel.
Very good.

MOVEMENT

Manual.
Very good, capable of running, cleaning needed.

CAL.	LeCoultre
DIMENSIONS	35 mm
CIRCA	1910/1990
ORIGIN	Switzerland

This is a small and exquisite pocket watch movement, which was fitted into a custom-made high-quality movement presumably in the 1990s. The bridge movement features a lever escapement, a gold screw compensation balance with blued balance spring, wolf-toothed winding wheels, a "moustache" compensation anchor, two hammers and two gongs.
