This Chopard is an unobtrusive yet exquisite watch. It is at the same time a piece of jewellery and a traditional wristwatch. The watch comes in a comfortable 25 x 23 mm yellow gold case with a patterned bezel, ornamented with the famous "Clous de Paris" decor, which Patek Philippe also used for their Calatrava watches. The elegant gold-coloured dial also features a delicately shimmering "Clous de Paris" decoration and simple Dauphine gold hands. The watch is powered by the flat manual-wind calibre 2512.

These beautiful Chopard models have been underrated for a long time, but have recently sparked new interest among among the

public and are becoming more popular all the time.
